

Hi! My name is Oliver Wendell aka "The Mouse"!

My story is quite simple. I had 11 brothers and sisters and we all came from Boston. We were left by our original owners in an alley way on the outer banks of Boston until a kind human brought all of us to the Humane Society in downtown Boston. We all were in a kennel together and it was warm and we ate food twice a day. We even were given a different colored collar to differentiate us to the sweet people coming in to adopt us. Mine was bright purple and I think that is why my Mom picked me! She tells me it is because of my long whiskers!

I am so happy now living with her and my sister Zuri and brother Marshall in a cozy house in Connecticut. Much nicer than living in the City! I can actually look out the windows and watch the birds and squirrels play in my yard every day! I did gain a little bit of weight but it keeps my family warm when I lay on them at night!

Please remember to adopt a cat – whether they are grown or a kitten like I was – because we all want to be loved and in a safe, loving environment. There are many grown cats in shelters today who may have had wonderful owners but may not be able to take care of them anymore. Please give the mature cats a chance. Please adopt an animal from a shelter if it is the right choice for you when you buy your home. Please save us or donate to your local animal shelter!

Here are some more pictures of me with my adopted family!
